

## **Cedar Mill Creek Flood Remediation Collaborative Project Team Meeting**

**Monday, February 5, 2018, 1:00pm to 5:00pm**

City Council Chambers, Beaverton City Hall, 12725 SW Millikan Way

### **AGENDA**

*Introduction:* Cedar Mill Creek and its major tributary North Johnson Creek drain a forested watershed on the west side of the West Hills mostly in Washington County. Because much of the watershed has been converted to urban uses, storm water runoff has been adversely affected and flooding occurs throughout the creek corridors even during relatively small rainfall events. The purpose of this collaborative effort is to enhance the natural functions of Cedar Mill Creek and North Johnson Creek corridors and manage flood risks in a manner that provides high quality natural habitat, while reducing flood hazard impacts on flood-prone residential and commercial properties.

*Meeting Objectives:* Review and consider approval of revised Shared Understanding Statement recommended by the Technical Advisory Committee (TAC). TAC overview of existing and planned infrastructure projects in the watershed. Receive update on community input. Special presentation by the Rain Ready group.

1:00pm	<b>Convener's Welcome</b>	Chair Duyck
1:10 pm	<b>Project Team Introductions</b>	Project Team Leads
1:20 pm	<b>Project Update</b>	Jensen
1:25 pm	<b>Community Input Update</b>	Huggins/Baker
1:35 pm	<b>Cedar Mill Creek Watershed Infrastructure</b>	TAC Representatives
2:45 pm	<b>BREAK</b>	
2:55 pm	<b>Open Comment Period</b>	Chair Duyck
3:05 pm	<b>Revised Shared Understanding Statement – Discussion &amp; Action</b>	TAC Co-Chairs
3:20 pm	<b>Rain Ready Presentation</b>	Jockers/Rain Ready Group
4:20 pm	<b>Open Comment Period</b>	Chair Duyck
4:30 pm	<b>Next Steps &amp; Final Comments</b>	Chair Duyck
